DETAILED ACTION

Remarks

This Office Action is responsive to applicant's amendment filed March 18, 2004.

Claim Rejections - 35 USC § 102 and 103

The rejection of claims 11, 14 and 16-20 under 35 U.S.C. 102(b) or 35 U.S.C. 103(a) based on Kamauchi et al. (U.S. Pat. 5,538,814) has been withdrawn. The rejection of claims 21 and 22 under the same grounds is deemed moot in view of the cancellation of these claims.

The rejection of claims 23 and 24 under 35 U.S.C. 103(a) based on Kamauchi et al. and Sun (U.S. Pat. 5,609,974) is deemed moot as these claims have been canceled.

The examiner notes that independent claim 11 has been amended so that the statutory type of the claimed invention is now a method-of-producing. In view of this amendment, the extent to which the teachings of Kamauchi et al. may be applicable towards the method limitations is only found to apply to the previously claimed electrode product and not the method-of-producing *per se*.

Allowable Subject Matter

Claims 1-10 are allowed for the reasons set forth in prior Office action dated July 7, 2002.

Claims 11, 14, 16-20 and 25 are allowed for reasons consistent with the allowability of claims 1-10. Specifically, the prior art of record and to the examiner's knowledge do not teach or

render obvious at least to the skilled artisan the instant invention regarding applying onto a first carrier an electrolyte composition having a width greater than the width of a second carrier but smaller than the width of the first carrier, subsequently followed by the instant first and second peel-off steps.
